

PEACH RIDGE NURSERY

John T. Bregger, Orchard Consultant — Clemson, South Carolina

1960 - 1961 LIST OF BEST NEW AND PROVEN PEACH VARIETIES

CARDINAL

Earliest yellow peach for commercial areas. Large, attractive, of excellent quality.

DIXIRED

Early yellow-fleshed peach with bright red blush. Six weeks before Elberta.

MAYGOLD

Yellow peach of Dixi-red season that can be planted as far south as Florida.

CORONET

Earliest freestone. Yellow firm peach. Larger and better shipper than Dixigem

REDHAVEN

Reliable early peach for all states above extreme South. Large yellow freestone and heavy producer.

RANGER

Large, firm, yellow peach to follow Coronet or Redhaven. Good color and resistant to bacterial spot.

TRIOGEM

Large, yellow, round freestone, ripening a week before Halehaven. All purpose, profitable variety.

REDGLOBE

Firm, well-colored, yellow freestone just ahead of Halehaven. Attractive red color and good shipper.

SUNHAVEN

A bright red, yellow-fleshed peach which ripens 10 days before Redhaven. Uniformly round in shape with attractive color and good flavor. Superior new variety.

SOUTHERN GLOW

An excellent short-chilling peach for far south areas. Large, attractive yellow freestone, ripening 3 weeks before Elberta. Won Sweepstakes award in La.

RICHHAVEN

At last a firm-fleshed, bright red peach to replace Halehaven. Large, almost round fruit with excellent qualities for shipping, canning and freezing.

RIO OSO GEM

A large, high quality firm yellow peach to follow Elberta for the fresh fruit trade. Particularly valuable for trucking long distances. A desirable semi-dwarf tree.

EARLIHALE

New Hale-type peach for Burbank Elberta season. High quality and good flavor, yet firm for shipping.

SUNHIGH

Highest quality yellow peach in Halehaven season. Ideal for canning, freezing and dessert uses.

SOUTHLAND

Large attractive freestone. A superior yellow peach and heavy producer. Adapted to entire South.

SUNCREST

Now we have a large, firm, high quality, attractive peach an even week ahead of Elberta. (10c extra)

LORING

New peach ripening before Elberta. A good yellow freestone for all areas.

BLAKE

Brilliant red peach just before Elberta. Adapted to any part of the country.

REDSKIN

Best new peach for Elberta season. Firm, large and beautiful all-purpose variety.

AFTERGLOW

Large, well-colored yellow peach. Best late variety to follow Elberta. (10 days)
